FOREWORD —

The Lornebrae herd of Scotch Shorthorns was founded in 1950. The objective in establishing the herd, was to have a breeding establishment that was in the top ranks. To achieve this aim our foundation was carefully laid by the purchase of cattle in Scotland, Ireland and many leading Canadian herds. Such purchases were made personally and not through the media of any agent. We have some pride, which we think is justified in our successes, we have exhibited at Canada's premier livestock show, the Royal Agricultural Winter Fair, Toronto, Ont., we have won many top awards including the grand champion bull award on Loamart Bolido, a bull which we used subsequently with outstanding success. Our herd productions have been sold to many parts of Canada and the United States, this fact in itself has been indicative of the kind of cattle we have produced.

The good boned, rugged, typey cattle we have produced has given us satisfaction such cattle have been from the herd bulls, Robinwood Edwin, a grandson of Millhills Ransom, Cruggleton Jefferson (imp) by Cruggleton Cargill, Miller's Armada by Calrossie Armada, Loamart Bolido a Royal Winter Fair Champion.

The production of any worthwhile product naturally gives great satisfaction financially and mentally. So it has been with us in the production of Shorthorns. We with the greatest regret are forced because of health reasons to disperse the herd. The friends we have made, a sense of accomplishment along with humble pride in the accomplishments, leaves us with no regrets for being a part of the Shorthorn Industry, our regret is in the fact that we are forced to relinquish our activity..
